Curb Appeal Award

Greenrock – 45 & 57-93 Balliol St

The Curb Appeal award recognizes exterior property improvements, gardens, landscaping, structural design, functionality and aesthetics of the entrance to the building. Consideration is given to the overall curb appeal and its relevancy to residents and surrounding neighborhood. Ivan Murgic, Greenrock's Vice President, Operations, said, "At this property, we had to waterproof the parking garage, which meant the landscaping had to be removed. We have always taken pride in our buildings' exteriors, but we decided to take this opportunity to take our curb appeal further. We hired Janet Rosenberg + Associates for the design, Halsall Associates as consulting engineers and Macdero Construction to do the work, and we are very proud of the winning result."

Other Nominees: Minto; Skyline
